

Century College Guest Network Access Terms and Conditions

Century College Guest Network Access Terms and Conditions

Version: 2026.01

Effective Date: August 4, 2026

Century College Guest Network Access Agreement

You are about to access the Internet through a guest network service operated by Century College. Use of this service is governed by this Guest Network Access Agreement, applicable Century College policies, Minnesota State policies and procedures, State of Minnesota laws, and all other applicable regulations.

By creating a guest account, accessing the guest wireless network, or otherwise using this service, you acknowledge that you have read, understood, and agree to be bound by the terms and conditions contained in this Agreement.

Eligibility and Account Registration

Guest network access is intended solely for approved guests of Century College. Users are responsible for selecting a unique username, maintaining a secure password, and keeping credentials confidential. Sharing credentials is prohibited. Century College reserves the right to reject, disable, suspend, modify, or remove any guest account at its sole discretion.

Account Duration and Expiration

Guest accounts are temporary in nature and may automatically expire, be disabled, or be removed after a defined period of inactivity or upon reaching the account expiration date.

Service Availability

Guest wireless service is provided on a best-effort basis. Service coverage, performance, bandwidth, and availability may vary. Century College does not guarantee uninterrupted service.

Acceptable Use

Users agree not to engage in unlawful activity, unauthorized access, malware distribution, spam, harassment, copyright infringement, security circumvention, proxying network access, or any activity that interferes with operation of the service.

Monitoring, Logging, and Auditing

Use of the guest network carries no expectation of privacy beyond that provided by law. Century College may monitor, log, review, and retain information including username, source IP address, account creation time, access times, terms acceptance records, authentication events, and technical troubleshooting information for security, operational, auditing, and compliance purposes.

Privacy and Security

Century College employs reasonable safeguards to protect its network infrastructure; however, no wireless network can be guaranteed completely secure. Users are responsible for protecting their devices, software, and data.

Suspension and Termination

Century College may suspend or terminate access at any time for violations of this Agreement, security concerns, operational requirements, or legal obligations.

Limitation of Liability

Guest network access is provided "as is" and "as available". Century College shall not be responsible for loss of privacy, loss of data, service interruptions, security incidents, hardware or software damage, or other damages arising from use of the service.

Changes to this Agreement

Century College may modify these Terms and Conditions at any time. Continued use constitutes acceptance of revised terms.

Acknowledgment

By selecting "I Agree", creating a guest account, or using the Century College Guest Network, you acknowledge that you have read and understood these Terms, agree to comply with them, understand that activity may be monitored and logged, understand accounts may expire, and accept responsibility for maintaining the confidentiality of your credentials.
